END TEDIOUS PAINT JOBS ONCE AND FOR ALL

(Morrisville, NC) – Admit it: there’s nothing more tedious than painting the railings on a front porch. Or the balusters on a staircase. Worse, a traditional paint brush just doesn’t cut it. You’ll end up with spotty coverage, drips and an unprofessional finish.

End it today with Trimaco’s ProPaint Mitt™. Slip on the Mitt – made of super absorbent premium fabric – dip it in your paint or stain, and apply in a wrap-around fashion.

The ProPaint Mitt works on any oddly-shaped surface, including columns, fences, railings and other tight spots. It’s a favorite in faux finishing too, providing good coverage as well as texture. There’s no shedding, either. Just consistent coverage, fast.

ABOUT TRIMACO, LLC

Trimaco products are available throughout North America in paint and hardware stores; home centers; and retail automotive, industrial and marine outlets. For more information, contact 1.800.325.7356 or visit Trimaco.com.
